

Fuji Phoenix® 'fenduf3'(s)

PARENTS & ORIGIN

Fuji mutant by Feno® GmbH

FLOWERING TIME

middle to late
mittelspät
medio-tardivo

PICKING TIME

beginning of october
Ernte Anfang Oktober
raccolta inizio ottobre

GROWTH

medium to strong vigour
mittel- bis starkwüchsig
vigore medio-forte

POLLINATORS

Golden Delicious, Red Delicious, Granny Smith.

TASTE

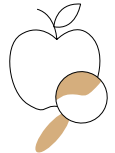

Very sweet.
Sehr süß.
Molto dolce.

APPEARANCE

Dark-red, blushed. Round, large. Smooth skin. Green-white flesh, very firm.

Farbe verwaschen und dunkelrot. Kugelig, groß. Glatte Schale. Grünlich weißes Fruchtfleisch, sehr festfleischig.

Rosso scuro, slavato. Rotondo, grande. Buccia liscia. Polpa verdognola- bianca, molto compatta.

CHARACTERISTICS

Very early coloration, less alternate bearing, blushed fruits, harvest time before standard Fuji. Ideal for difficult coloring areas, the percentage of over color inside the trees is excellent, too.

Färbt sehr früh, geringe Alternanz, Deckfarbe ist verwaschen, reift einige Tage vor Standard Fuji. Geeignet auch in schlechten Farblagen, die Früchte färben auch sehr gut im inneren des Baumes aus.

Colore molto precoce, meno alternanza, sovra colore slavato, epoca raccolta prima di standard Fuji. Ideale per le zone di coltivazione meno vocate con ottima colorazione dei frutti anche all'interno dell'albero.
