

# Fuji Rubinfuji® 'fenfu'(s)

## PARENTS & ORIGIN

Fuji mutant by Feno® GmbH

## FLOWERING TIME

mid-late season like Golden Del.  
mittelspät, ca. wie Golden Del.  
*medio/tardivo simile a Golden Del.*

## PICKING TIME

end of october  
Ernte Ende Oktober  
*raccolta fine ottobre*

## GROWTH

medium to strong vigour  
mittel bis starkwüchsig  
*vigore medio-forte*

## POLLINATORS

Red Delicious, Golden Delicious, Gala,  
Granny Smith, Idared.

## TASTE

Very sweet, juicy.  
Sehr süß, saftig.  
*Molto dolce, succoso.*

## APPEARANCE

Dark-red/purple striped; round, large.  
Smooth skin with star-shape lenticels.  
Green/white flesh, very firm.

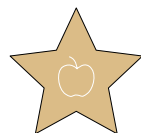

Dunkelrot/violett gestreift auf der gesamten Fruchtoberfläche. Kugelig, groß. Glatte Schale mit sternförmigen Lentizellen. Grünlich/weißes Fruchtfleisch, sehr festfleischig.

*Striatura rosso scuro/viola. Mela rotonda, grande. Buccia liscia con lenticelle a forma di stelle. Polpa verdognola/bianca, molto compatta.*

## CHARACTERISTICS

The stripes are very pronounced and well distributed all over the fruit. Very good colour also in unfavourable sites.

Die Streifung ist sehr markant und flächendeckend. Optimale Färbung in allen Farblagen.

*La striatura è molto pronunciata ed è presente su tutta la superficie del frutto. Colorazione ottimale anche in luoghi meno vocati.*
