Molto dolce.

APPEARANCE

Full coloured cherry red overcolour,
blushed. Large, round. Smooth skin.
Greenish white flesh, very firm.

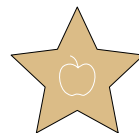

Flächendeckende kirschrote Deckfarbe,
verwaschen. Kugelig, groß. Glatte Schale.
Grünlich/weißes, sehr festes Fruchtfleisch.

*Sovra colore rosso ciliegia su tutta la superficie, slavato.
Rotondo, grande. Buccia liscia. Polpa verdognola-bianca,
molto compatta.*

CHARACTERISTICS

Very early colouration, attractive
blushed overcolour, gets also
good colour under unfavourable
conditions, less alternate bearing.

Färbt sehr früh, attraktive verwaschene Deckfarbe,
auch für den Anbau in schwachen Farblagen geeignet,
geringe Alternanz.

*Colorazione molto precoce, sovra colore slavato
attraente, si adatta anche alla coltivazione in luoghi
meno vocati, quasi non suscettibile ad alternanza.*
