

Red Delicious 'Zad1'(s)

PARENTS & ORIGIN

Mutation of Red Del. „Hapke“ by Feno® GmbH

FLOWERING TIME

middle to early
mittelfrüh
medio-precoce

PICKING TIME

end of august/begin. of sept.
Ernte Ende August/Anf. Sept.
raccolta fine agosto/inizio sett.

GROWTH

medium vigour, Semi-Spur character.
mittelstarker Wuchs, Semi-Spurtyp.
vigore medio, carattere Semi-Spur.

POLLINATORS

Granny Smith, Golden Delicious, Idared, Gala, Fuji.

TASTE

Sweet, low acidity, crispy, juicy.

Süß, wenig Säure, knackig, saftig.

Dolce, acidità bassa, croccante, succosa.

APPEARANCE

Very dark to black overcolour (100%).
Medium-large, typical for Red Delicious.
Smooth skin, rather thick, with many visible, white lenticels. Greenish white and firm flesh.

Sehr dunkle bis schwarze Deckfarbe (100%). Mittelgroß, kegelstumpfförmig, typisch für Red Delicious. Glatte, eher dicke Schale mit zahlreichen sichtbaren, weiße Lentizellen. Festes, grünlich-weißes Fruchtfleisch.

Sovra colore molto scuro piuttosto nero, (100%). Medio grande, conica, tipica del Red Delicious. Buccia liscia, piuttosto spessa, con lenticelle bianche ben visibili. Polpa verde-bianca, compatta.

CHARACTERISTICS

Semi-spur character, gets also good colour under unfavourable conditions.

Semi-Spur, auch für den Anbau in sehr schwachen Farblagen geeignet.

Carattere Semi-Spur, si adatta anche alla coltivazione in luoghi meno vocati.
