

Wiltons Star Red Jonaprince Select®

PARENTS & ORIGIN

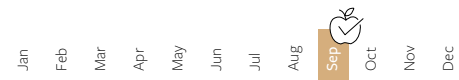

Jonagold mutant (more precisely of Jonaprince®), discovered at the orchards of the brothers Princen in Weert (Netherlands). By Red Jonaprince B.V.

FLOWERING TIME

middle to late
mittelspät
medio-tardivo

PICKING TIME

end of september
Ernte Ende September
raccolta fine settembre

GROWTH

Quite strong in the beginning, later moderate growth, flat branches.

Ziemlich starkwüchsige juvenile Phase, später mittleres Wachstum, flache Astanordnung.

Crescita abbastanza vigorosa nei primi anni, poi moderata, buona ramificazione orizzontale.

TASTE

Good taste, slightly sweeter than Jonagold. Crispy and juicy.

Guter Geschmack, etwas süßer als Jonagold. Knackig und saftig.

buon gusto, leggermente più dolce rispetto a Jonagold. Croccante e succosa.

POLLINATORS

Granny Smith, Braeburn, Gala, Golden Delicious, Idared, Prof. Sprenger.

APPEARANCE

Intense dark red overcolour on the whole surface. Large, round, built high. Smooth skin. Very firm flesh.

Intensive dunkelrote Deckfarbe auf der gesamten Fruchtoberfläche. Groß, rund, hoch gebaut. glatte Schale. Hohe Fruchtfleisfestigkeit.

Sovra colore rosso scuro intenso su tutta la superficie. Grande, rotondo, cilindrico allungato. Buccia liscia. Polpa molto compatta.

CHARACTERISTICS

Early colouration, best colour among the Jonagold clones, high and constant yields, early entrance in production, one pick usually sufficient.

Färbt früh, beste Ausfärbung aller Jonagold-Mutanten, hohe und regelmäßige Erträge, schneller Ertragsseintritt, ein Pflückgang meist ausreichend.

Colorazione precoce, miglior colore di tutte le mutazioni di Jonagold, produttività elevata e costante, entra in produzione precoce, raccolta avviene normalmente in un unico stacco.
